Blind Assignments

Day: Sunday Date: 24 Oct 2004

Hunting Hours:
Start: 0640
Stop: 1811

Blind requests with highest total number of "priority" (blind repairer) chits are processed first. Within that group, the member status priorities (1-5) listed on the blind request are next used to prioritize assignments. If a hunter has no partner, his request is processed after others of the same priority.
