

# WHO DUMPED THEIR TRASH OVER THERE?

Why did they dump it here? Where can we put it? Where did it come from? Doesn't anyone care how our neighborhood looks?

Unfortunately, trash is a result of everyday life! It piles up in places everywhere around us. We see it at ball games. We see it along the curbsides of public streets. We see it at parks, graduations sites, birthday parties, restaurants, grocery stores and especially when we drive through our neighborhood or community.

We can't avoid it! We can't ignore it! But with your help we can do something about it!

As a housing resident at Naval Base Ventura County, as a neighbor, and as part of this community and command, we all need to take personal responsibility to ensure that all debris is placed correctly inside waste containers. We see too many instances where trash is discarded for others to be responsible for cleanup. Remember, this is your community too!

From the smallest trash container, all the way up to the largest type of dumpster, if not properly disposed, trash can cause a very bad odor. It could be a feeding ground for rodents, birds, and other animals leading to a public nuisance to you and your neighbors. They could even cause damage to your personal belongings.

With the growing number of cutbacks, we as a community need to become more involved in policing our neighborhoods and safeguarding the environment around us. Help us paint a canvas of our environment and communities that our children will be able to enjoy in the future.
